

Puja Prasad

Int. PhD Student from August, 2007

Lab. No.: B013

Tel: +91-80-22932240

E-mail: puja@ipc.iisc.ernet.in

B.Sc.: University of Calcutta, Lady
Brabourne College, 2007

MS: Indian Institute of Science, 2009

Research Interest: Our group is targeting to synthesize potent PDT (Photodynamic Therapy) agent for treating cancer. My main objective is to increase photo-nuclease activity and reduce chemical nuclease activity. I am studying the effect of changing ancillary ligand on Photo-induced DNA cleavage activity and Photocytotoxicity of Oxovanadium(IV) complexes having phenanthroline bases.
